The Power of Botanicals

The key to beautiful, younger-looking skin is cell renewal. Young skin does this effortlessly. As we age, cell renewal slows and we produce less collagen and elastin. Unlike ordinary skin care, our advanced technology goes beyond addressing aging on the surface to target the cellular level of your skin. We do this using a patent-pending Youth Complex that activates a key youth protein to regenerate cells to produce more collagen and elastin, helping your skin act younger...so you can Look Younger Longer.

Lotus Japonicus

Patent-pending Youth Complex, infused with Lotus Japonicus, **activates a key youth protein to regenerate cells to produce more collagen, elastin, and fibrillin.** Youth Complex couples Lotus Japonicus with Schisandra Chinensis Fruit Extract that structurally helps provide more nutrients and energy to your skin.

Muscadine Grape

Patent-pending Muscadine Grape Polyphenols protect and repair cellular DNA while blocking collagen and elastin breakdown.

Vital Repair[®]+ Complex

Multipatented Advanced Vital Repair+ Complex provides **antioxidant nutrients and essential vitamins to block skin-damaging free radicals and encourage healthy cell growth.**
